G. T. P. AT CALGARY

Calgary, Dec. 22nd, 1913.—

Within three weeks after the valuation placed on the baracks site by Judge Audette of the exchequer court has been made public and all details in connection with the transfer arranged the G. T. P. will have temporary terminals built in this city and a train service on the new line inaugurated, while next spring will see the erection of a permanent station freight sheds and a roundhouse.

This was the statement made by Morley Donaldson, general manager of the G. T. P. company, who arrived in Calgary in his private car "Transcontinental" Sunday night en route to Prince Rupert. Mr. Donaldson remained in the city only a few hours, leaving for the coast on the early morning train Monday. He will inspect the G. T. P. line east from Prince Rupert.

"I understand," said Mr. Donaldson, "that Judge Audette will probably make public his decision in regard to the barracks property this month. The decision I think will meet with the approval of the parties concerned and in this event it will only be a matter of about three weeks before temporary terminals are erected and a train service started. In fact, the company is only waiting until the transfer is made, and had certain difficulties not arisen in regard to the securing of the property we would now be running trains into Calgary."

The G. T. P. realize to the full the importance of Calgary as a railroad center and at present plans are being prepared for the erection in this city of terminals which will cost well up in the hundreds of thousands.

The construction of these permanent terminals will be commenced next spring, just as soon as the frost is out of the ground. A station, freight sheds and a roundhouse will be built. Several hundred men will be employed."

Miss Nelson, of Banff, Alta., is visiting with her sister, Mrs. Jno. Fulton.

Mrs. Jno. Stevenson, and children, and Miss Olive Wilson, of Stettler, Alta., spent Xmas Day with Mr. and Mrs. Fred Dowdall.

Earl Estell has invested in a 30 h. p. Case automobile and brought it up from Calgary last week.

The table of comparative fire losses of different countries in 1912, published in a recent number of "Conservation," furnishes interesting food for thought to Canadians. Among ten leading countries Canada and the United States stand first and second respectively in "loss per capita" rate, \$288 and that of the United States, \$255. Our boasted "Canadian" and "American" progressiveness seems a little at fault when we compare the above figures dealing with those countries which are largely prevented, with those for some other countries—viz., England, \$0.54; Germany, \$0.20; and Austria, \$0.30.

The JOURNAL is indebted to Suggett Bros., Mirror Cash Store, E. E. Estell and Panrucker & Holland for calendars for the year 1914.

LOCAL NEWS

The JOURNAL wishes you prosperity during your 1914.

The report emanates from Ottawa that the Official Gazette in its next issue will contain the proclamation for the meeting of the next session of Parliament on January 15th next. It is expected that the naval question will come up again but that perhaps the most contentious question will be the re-distribution bill.

H. J. Baymer left on Tuesday morning for his home in Winnipeg, where he will eat his Xmas turkey. He will return to Mirror after the New Year.

Miss Edith Brewster is home from the college in Edmonton, to spend the Xmas holidays.

Miss Cassidy is home from attending Normal at Camrose. She has been engaged to teach the Ripley school during the coming term.

The Village Council held their final meeting for the year last Friday evening; Chairman Rayner and members Flewelling and Culver being present. A number of accounts were ordered to be paid, and business of minor importance transacted.

The School Board will hold a meeting tonight (Friday) to wind up the affairs of the year. The annual meeting of the raters will be held some time during the first two weeks of January, when the re-nomination for trustees will take place. W. G. Morley is the retiring trustee.

School closed on Wednesday for the Xmas and New Year's holidays, and will re-open on Monday, January 5th. Owing to the increase in attendance it has been found necessary to engage another teacher, and at the beginning of the next term the teaching staff will be increased.

Those who are owing The JOURNAL will be delighted to hear that we are sending out statements of all accounts for advertising subscriptions and job work owing up to the end of this year, as we wish to clear up all outstanding accounts. We might also add, that among whom THE JOURNAL is unfortunate enough to be indebted to, would be doing us a favor if they would send us a statement of their account, so we can make a start at paying off our liabilities from the money that is going to pour in on us.

The Methodist Church, Mirror, is organizing an Adult Bible Class. Mr. Allen is acting as treasurer; Mr. Tucker as secretary; Rev. R. Upton and A. Oldring, joint presidents. The class will meet every Sunday afternoon in the Methodist Church at 3 o'clock. A hearty invitation is extended to all adults.

Miny Lally, of Wainwright, Alta., resigned Wednesday of last week, rather than sign a clause in payment for a poolable for the local paid fire brigade of eight men. Mayor Kelly was elected a year ago to serve a one-year term.

Blaming the attitude being adopted by the temperance organization, President (Dr.) of Saskatchewan, last Friday morning, withdrew the bill to abolish bars in Saskatchewan and also that providing for a plebiscite on the question of bringing the former into law.

Mr. and Mrs. J. P. Erickson are spending the Xmas holidays in Castor, Alta.

We are nearing the close of another year. If your subscription is not paid we will appreciate it if you will not put off any longer in remitting your small amount due. It is not much to each one, but it means a lot to us collectively. You will help us a whole lot by keeping your subscription always paid up. Do it now while you have it in mind.

Mr. and Mrs. J. A. Johnson, Roy Hopkins and his sister, Miss Hopkins, spent Xmas Day at the latter's home at Erskine, Alta.

Dr. G. W. Meyer has moved his office from the building two doors west of the drug store on Lake street, to his residence just south of the English church.

Worthy of the world's best music

To most of us the chance to hear human playing of good music comes infrequently. Only in the great cities are the appetites of the music-hungry satisfied. Even then one can hear but a small part of all the worth while concerts.

Fortunately for those who love the masters of the past, and who have the time and money to appreciate them, there is the Edison Phonograph. It is worthy of Wagner, of Bach, of Puccini. The clear, sweet tone, remarkable in its purity, is simply a translation of human music into your own home. Unless you have heard the newest Edison, you have no conception of the wonderful musical quality. You never realized that such beauty could be applied to sound.

Ask your Edison dealer to play one of the Blue Amberol Records—then will you know what the whole world of good music—past and present—is open to you.

TRADE MARK
Thomas A. Edison

A complete line of Edison Phonographs and Records will be found at

Perjury Denounced

In trying a case at Hamilton Judge Mock said that in Division Court cases most of the time he was not injured, and it was difficult for Judges to make decisions. "There is also getting to be a great number who are going to stamp it out," he announced. "I am a member of the Bar and should do all in my power to prevent perjury, and if a lawyer knows a witness is committing perjury, he should publish the fact."

Don't Dope with Alcoholic "Tonics"

This is honest advice for you who have run down and sickly—don't drink alcohol. It is better to take this advice with our personal guarantee than to risk your money back.

There are a number of so-called

tonics which do not depend on

the short-lived popularity on an

americor they possess, but upon the other hand there are many tonics and the dangerous or habit-forming

drugs in some of them give a few moments of relief, but after a dose taken before a meal, after a dose is taken. After awhile, even this effect ceases to take place, and then the user turns to stronger and stronger tonics, until finally he turns to relief for sponging size.

Don't dope yourself with such stuff real medicine that will do you good, give you strength, disease-relieving and disease-releasing ingredients, and get well and keep well. It is a real blood and nerve medicine, and does not contain either dangerous or habit-forming drugs, but is made entirely from ingredients which give health and strength and health of the ailing.

You who are weak and rundown, and who are not able to work now, but are liable to suffer from various colds, winter ailments, etc., will find Oliver's Tonic to get and keep well and strong. For the tired-out town, nervousness, convulsions—children—aged people—it is a sensible aid to health, strength, better spirits, glowing health.

Rehall Olive Oil Extract—King

the world—will keep you free from sickness from your head to your

family. Pleasant-tasting, can easily be swallowed, and will help you to be as enthusiastic about it as we are when you have had a taste of it. It is a real tonic, will build up, disease-preventing effects. If it does not help you, it is your money. Argument Sold in this community only at one store—The Royal Drug Store, the United States, Canada and Great Britain—Suggested Bros., Mirror, Alberta.

TO BEAUTIFY OTTAWA

M. E. HOLT IS PROBABLE CHAIRMAN OF NEW COMMISSION.

Montreal Man Who Has Much to Do With Light, Heat and Power Supply of That City Heads Federal Board—Home Smith and Frank Darling of Toronto Are Members.

The new commission, for the beautification of Ottawa, is a more important body, because it has a greater power to effect changes than any committee. One is from Montreal—S. E. Holt—and two are from Toronto—Home Smith and Frank Darling.

No one doubts that as an engineer Mr. Holt is very eminent. He has more to do with keeping Montreal supplied with light, heat and power than any other man. One is from Montreal—S. E. Holt—and two are from Toronto—Home Smith and Frank Darling.

Years past attention has been given to the beautification of a part of Africa which is only the most thickly populated region on earth, and the result is the richest palm oil belt in the world, and after the discovery of a coal-field at the mouth of the river, there are 100 square miles and yielding coal showing 75 per cent. of the value of the best coal in the world. The time of railway became more pressing.

Recently Lt. Hugh found a little town in the interior of Africa, the surprise of all showed a depth of 10 feet of water along-side a precipitous cliff. He had to go down the things unknown anywhere between Sierra Leone and the Congo.

Home Smith, about the same physical size as Mr. Holt, is a young man who has come to the front as a maker of urban landscapes since he left the office of the National Trust Commission. He has done more than any other man in Toronto to set on foot a great deal of work in the city property. He has rediscoved the Lambton Golf Club, and is now president of the Toronto. Under his direction there is now going on a set of improvements which will make the golfing of a city beautiful. In his many walks to and from the Lambton Golf Club, he has seen the possibilities of the area of lovely land which he has been buying by making of roads, creating transportation facilities, and so on, so that the land without burning a half day to reach it. To realize the idea of the Victoria Park, the great waterfront and boulevard scheme of the Harbour Commissioners, the Director of Railways, the Director of Marine, and the commander of the Army and Navy, he has now collected the dunes and cut through a section of almost impenetrable vegetation to bring the land to Lt. Hugh. Then he attended a tree to view the country. A few years ago he had seen a white man who had been there before. Further investigation showed that the man was as exhausted as he was such as had never been hoped for on the West African coast, and was taken to the hospital and was taken to the hospital and was taken to the hospital and could not live his bed for more than three weeks.

A remarkable series of cliffs extending for three-quarters of a mile and averaging 45 feet above high water, and dropping down into the swamp. Opposite those cliffs sounds were such as had never been heard before. They worked so hard that they got so exhausted that they had to be helped back to their cellars. The man, a native of Newbrook, faints, and was taken to the hospital and was taken to the hospital and was taken to the hospital and could not live his bed for more than three weeks.

On February, 1885, the wash-house at Dartmoor prison caught fire, but thanks to the speed with which the inmates put it out, the governor wrote in his report that the wardens were gone under fire.

On March 16, 1891, during a blizzard of snow recorded. On the heights of Dartmoor that night the cold was terrible, the drifts were piled forty feet deep, and did not melt until the next morning.

On the 15th the sheep began to die. Three prison officers volunteered to lead a party to rescue the poor creatures from the drifts. The governor, and for attempting to save the lives of the sheep, was given a reward of £100.

There was much commotion and running about by hurried porters, but nothing about by hurried porters, but

RICHES OF WEST AFRICA.

Officer's Dramatic Discoveries—Where No White Has Ever Distinguished Themselves.

"They worked nobly, many of them severing bars in their efforts to save the machinery from complete destruction. The officer staggered out with his clothes actually in flames, and his hair and eyes were black.

Who were the men? The owners of the machine, or workers, or the factor who knew that if it were destroyed, they would be unable to earn their bread? They were convicts, imprisoned in the great American convict prison of Alcatraz, on the bank of the Hudson River, above New York.

The whole line, which will be 550 miles in length, of the standard African gauge, is estimated to cost \$3,000,000. The cost of labor will have been 40 per cent. in construction.

Years past attention has been given to the beautification of a part of Africa which is only the most thickly populated region on earth, and the result is the richest palm oil belt in the world, and after the discovery of a coal-field at the mouth of the river, there are 100 square miles and yielding coal showing 75 per cent. of the value of the best coal in the world. The time of railway became more pressing.

Recently Lt. Hugh found a little town in the interior of Africa, the surprise of all showed a depth of 10 feet of water along-side a precipitous cliff. He had to go down the things unknown anywhere between Sierra Leone and the Congo.

Home Smith, about the same physical size as Mr. Holt, is a young man who has come to the front as a maker of urban landscapes since he left the office of the National

Trust Commission. He has done more than any other man in Toronto to set on foot a great deal of work in the city property. He has rediscoved the Lambton Golf Club, and is now president of the Toronto. Under his direction there is now going on a set of improvements which will make the golfing of a city beautiful.
